

The solution for water shortages

## BDD-30 Blue Dye Dispenser

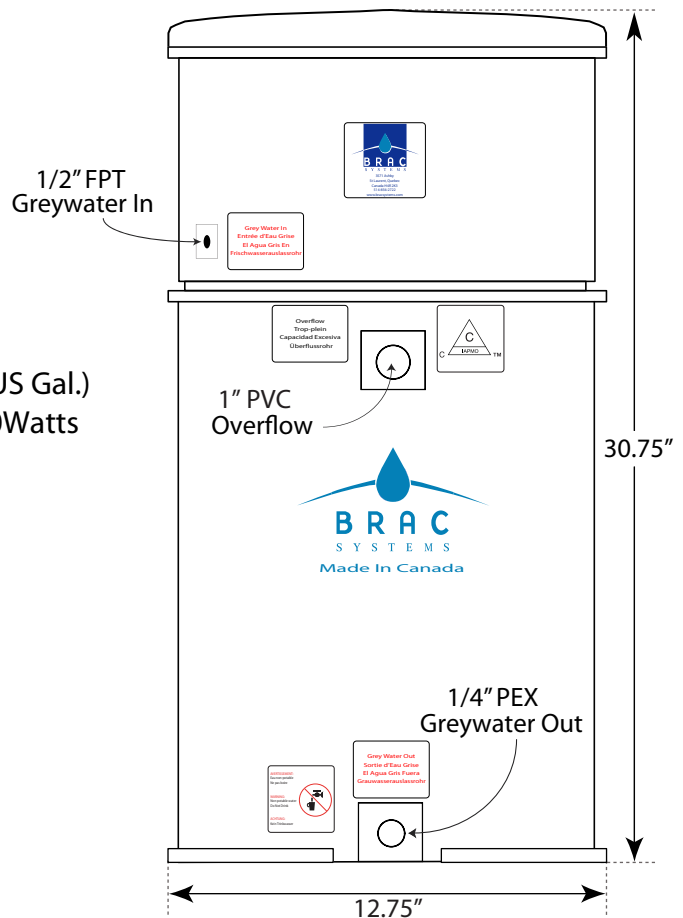

The BDD-30 Blue Dye Dispenser by Brac Systems is designed for use with all Brac Greywater Recycling Systems. This unique, patent-pending, dispensing device can be used where local plumbing codes require that the greywater be tinted with a food-grade blue dye. The BDD-30 can also be used as a stand alone unit in commercial buildings to dispense blue dye into potable-water supplied toilet systems. An integrated controller will mix a portion of blue dye as required for an autonomy of up to 1,000,000 litres (263,852 US Gal.) of blended flushing water.

**PRICE:** CAD\$1,295.00

### FEATURES:

- Robust PolyEthylene (HDPE) tank construction
- Controlled Blue Dye dispensation
- Weight: 10 kg (22 lbs)
- Inlet: fits 1/2" NPT
- Outlet: fits 1/4" Pex
- Overflow: fits 1" SDR or SCH40 PVC pipes
- Compatible with all BRAC Greywater Systems
- Recommended blue dye: BracBlue™
- Concentrate volume: 1.4 liter
- Reservoir yield: up to 1,000,000 litres (263,852 US Gal.)
- Universal Power Supply: 100-230v, 50-60 Hz, 40Watts
- Energy Consumption: Negligible

BracBlue™ is available in one Litre (1 Quart) containers and can be purchased directly from a Brac dealer/distributor. Each container can treat up to 715,000 Litres (188,650 US Gal.) at the lowest diluted setting. Contact your local Brac dealer/distributor for pricing and availability.
