

The solution for water shortages

Product Sheet - BracBlue™

BracBlue™ has been formulated from a safe, food-grade dye for use with the Brac Systems BDD-30 Blue Dye Dispensers. The BDD-30 is a unique, patent-pending dispensing device that was specifically developed to automatically tint greywater heading to the toilets/urinals a pleasingly blue colour. We developed this product for use in areas where local plumbing codes require that the greywater be tinted with a blue dye.

BracBlue™ can be used with any existing systems or dispensers. Odorless and nontoxic, BracBlue™ can also be used to bring a natural blue appearance back to lakes, ponds and fountains. It's safe, easy to use, long lasting and is harmless to fish and wildlife.

BracBlue™ is available in one litre (1 quart) bottles and can be purchased directly from a Brac dealer/distributor. Each bottle will effectively treat up to 715,000 litres (188,650 US Gal.) at the lowest diluted setting.

Retail: CAD\$29.90 each
Available in cases of 12 x 1 litre.
coming soon in 3.79 litre (1 US Gal.) size
