

The solution for water shortages

Product Sheet RGW-502

BRAC System RGW-502

The RGW-502 is equipped with 2 - 1 H.P. pumps (one mounted externally on a high-durability, recycled plastic pallet) to provide more pumping pressure and delivery volume to large sized homes with numerous bathrooms, and piping systems with long pipe runs. The RGW-502 also features a chlorinator for maintaining precise levels of free chlorine, two pleated filter cartridges and housings, for better flow rates and ease of cleaning. This model is the perfect solution for larger sized custom homes with families of up to 12 people. Not only will you be saving money on your water bill, but you will also be reducing your household water consumption by up to a third, thus helping to conserve our most precious natural resource.

Model RGW-502

MSRP (retail): CAD\$ 4985.00/unit

Capacity:

500 Litres

132 US Gallons

Dimensions:

Height: 67" (152.5 cm)

Length: 48" (120 cm) - Base Measurement

Width: 32" (80 cm) - Base Measurement

Weight: 213 lbs (97 kg)

Noise Level

73dB @ 3 feet

Features of the Brac System:

- Long lasting HDPE molded shell
- Electronic control pressure boosting pump (110/220v switchable)
- Electronically controlled water make-up system
- Programmable electronic chlorination system
- Greywater (Purple) marking tape included
- Extra filter included

Estimated Yearly Consumption (*1)

6 person = 60 Kwh

Peak Start-up Surge = 2100 Watts

(*1) Based on 7 flushes /person/day (6 LPF)

Periodic Maintenance

Filter rotation/cleaning = 4 weeks

slow dissolving chlorine tablet = 8 weeks

Prices subject to change without notice

Prices effective March 3, 2009. All prices are quoted in Canadian Dollars (CAD\$), and do not include shipping, duty, or tax, if applicable.
